men. 25 Red Cross women, 12 Red Cross men, 25 Knights of Columbus and 50 chauffeurs. Six thousand tons of frozen Argentine beef is aboard the Vauban. Her first stop will be at Havre. France.

#### If your Child is Cross, Feverish and Sick.

Look, Mother! If Little Tongue is Coated, Cleanse the Inactive Bowels with "California Syrup of Figs."

A child simply will not stop playing to empty the bowels, and the result is that they become clogged with waste, the liver becomes singgish, the stomach is disordered, and then your little one becomes cross, feverish, and does not eat, sleep or behave naturally. Of Senna, "made by the California Syrup of Figs and Elixing" with a cold; the child has sore throat, stomachache or diarrhoea. Listen, Mother! See if tongue is coated, then give a teaspoonful of "California Syrup of Figs and Elixing" with a cold; the child has sore throat, stomachache or diarrhoea. Listen, Mother! See if tongue is coated, then give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated waste-"California." Accept no Fig Syrup but few hours all the constipated waste-"California."—Advt.

School. There was no known reason given for his disappearance. When siven for his disappearance. The siven for his disappearing in the set of his wester. For y

Children love this "fruit laxative," matter, sour hile and undigested food and nothing else cleanses the tender stomach, liver and bowels so nicely.

A child simply will not stop playing.

Millions of mothers give "California"

## KNIFE FOUND BY HIS SIDE

His Companion, Rumored in Love Something Must Be Done Because With the Same Girl, Is Under

Policeman Johnson, running toward

intil shortly before 2 A. M., and started or a restaurant in Union Street. As they were about to cross the street at they were about to cross the street at Van Brunt, he said, two men he never naw before stepped out and fired two shots into Mendez. Near the body the police found a long sheath knife such as sailors carry, but he revolver.

Cordino is detained at the Amity Street Station as a witness. The police are investigating a story that he and the dead man were in love with the same girl. The knife belonged to the dead sailor.

#### LEFT FOR HIGH SCHOOL; MOTHER IN CONEY ISLAND HASN'T SEEN HIM SINCE

There Are No Known Reasons Why Isadore Sudman Should Have Left Home.

The Evening World has been asked to assist in finding Isadore Sudman, seventeen years old, who has been missing from his home, No. 2917 Surf Avenue, since last Monday, when he left for Erasmus Hall High when he left for Erasmus Hall High School. There was no known reason given for his disappearance. When last seen he was wearing a green sport sweater, gray knickers, gray hat and black shoes. Any word of his whereabouts will be gratefully re-ceived by his mother, Rose Sudman.

## Theories are dangerous-Principles are safe

MENNEN'S Cream Dentifrice costs 35 cents, and is right

in principle. Many dentifrices

which are wrong in theory, cost

New York Office, Marbridge Bldg., 6th Ave., & 34th St. Phone, Greeley 2828

25 cents.

THEORY is clever guess workprinciples are scientific facts.

Theories are as likely to be wrong as right-principles are always right.

Mennen's Cream Dentifrice is based upon a principle-new, radical, revolutionary-but right.

This principle is the product of the researches and discoveries of H. P. Pickerill, M. D., Ch. B., M. D. S. (Birmingham), L. D. S. (England), recognized as one of the world's leading authorities on Dental Science. Dr. Pickerill's conclusions, which are accepted by the profession of dentistry, are as follows:

Among the principal causes of tooth decay are the acids of food fermentation.

The only natural and effective agent that can neutralize and render harmless these acids, is a copious and constant flow of saliva.

An alkaline dentifrice (practically all dentifrices are alkaline) is dangerous because it partially paralyzes the salivary glands and checks the secretion and flow of saliva, thus interfer-

of protecting the teeth. Mennen's Cream Dentifrice is based upon Dr. Pickerill's principles.

ing with Nature's method

It is absolutely non-a!kaline. It does not check the flow of saliva.

It cleanses, whitens and polishes the teeth wonderfully, without scouring or grinding the

It emulsifies and breaks down tartar formations and mucin placques.

It introduces into the mouth a quantity of mild fruit acid, which dissolves in contact with water and exerts a stimulating influence on the salivary glands, increasing the secretion, flow and alkalinity of the saliva, thus aiding Nature to destroy the acids of food decay.

Mennen's has a 20% content of alcohol which erves as an antiseptic deodorant and conditioner of the gums. Aromatic oils make Mennen's pleasant to use-cooling, refreshing and with a delightful after-taste.

The reason you may like your present dentifrice is probably because of an agreeable taste. If it is alkaline, it is not benefiting your teeth but is harming them because its formula is based

upon a wrong theory. Mennen's is equally agreeable and it will benefit your teeth because it is in accord with Nature's laws. It is right in principle.

Try one tube. Immediate

results will convince you. Permanent results will show in cleaner, whiter, sounder teeth,

### What Determines Meat and Live-Stock Prices?

Some stock men still think that Swift & Companyand other big packers-can pay as little for live-stock as they wish.

Some consumers are still led to believe that the packers can charge as much for dressed meat as they wish.

This is not true. These prices are fixed by a law of human nature as old as human nature itself-the law of supply and demand.

When more people want meat than there is meat to be had, the scramble along the line to get it for them sends prices up. When there is more meat than there are people who want it, the scramble all along the line to get rid of it within a few days, while it is still fresh, sends prices down.

When prices of meat go up, Swift & Company not only can pay the producer more, but has to pay him more, or some other packer will.

Similarly, when prices recede all down the line Swift & Company cannot continue to pay the producer the same prices as before, and still remain in the packing business.

All the packer can do is to keep the expense of turning stock into meat at a minimum, so that the consumer can get as much as possible for his money, and the producer as much as possible for his live-stock.

Thanks to its splendid plants, modern methods, branch houses, car routes, fleet of refrigerator cars, experience and organization, Swift & Company is able to pay for live cattle 90 per cent of what it receives for beef and by-products, and to cover expense of production and distribution, as well as its profit (a small fraction of a cent per pound), out of the other 10 per cent.
